5TH EDITION

The Care of the Older Person

Edited by **Ronald Caplan**

This fifth edition brings to you updated and revised content, built on the basic understanding that medicine does not work in a vacuum, but rather alongside other disciplines to provide the environment for a healthy and fulfilling long life. Edited by alumni and senior faculty at McGill University, with international contributions, this book advocates the achievement of better, longer, satisfying, and more productive lives for older persons. A helpful resource for physicians, professional caregivers, therapists, students, and residents in medical and nursing disciplines, who care for our burgeoning older population, and need to know what to look for and when to consult specialists.
